

40, Fierce, and Fabulous!

Cheree Brown- Dailey recently celebrated the big 40th with a lavish All White Party held at her burb address. The party's backdrop featured white lounge chairs, white sofas, a dance floor, live band, large TV screens that displayed her pictures throughout the evening, two fully staffed bars with as much liquor as you could order, as well as a Margarita machine. The backyard looked as if I had stepped into a chic Miami lounge! Pappasito's Catering was set up in the front of the home, complete with a smoking hot grill, serving a full Mexican Fajita Dinner.

Cheree greeted her guests donning a white Herve Leger mini dress, complimenting her hour glass figure. After a few wardrobe changes, she closed the night out in a white, silk romper and high, high heels, showing off those chiseled legs and thighs, you go girl! The birthday cake was custom designed and boasted the same pattern as the shoes the birthday girl wore throughout the evening. This party was definitely designed for the grown and sexy.

Stepping to the beats all night were hubby, Kevin Dailey, Carolyn Scott Brown, Corina Scott, Marcus and Meka-Brown Edwards, Cherry and Phelan Wilkins, Belinda Wyche, Donnie Johnson, Damon and Paula Sayles, Anita Robinson, Dee Randolph, Birda Porter, Katherine and Charles Smith, Roderick and Rodney Scott, Katrice Young, Stephanie and Marc Young, Eric Young, Marquis Parker, Rowana Scott-Tillis, Tonya Boyd, Susan and Jerome Johnson, Marc Morris, Aristotle Onassis, Al and Dee Coleman; and Yolanda Dickson-Campbell, Torrey G, Tewanza Williams, Tyrasa McGown, all came in from Dallas to partake in their home girl's celebration. Also many of her New Life Tabernacle family and friends partook in the celebration.

And if that wasn't party enough, Cheree and hubby Kevin took off the following week to celebrate their 10th year wedding anniversary, and the Labor Day weekend along with 14 family and friends, to Puerto Vallarta, Mexico. Lavishly being pampered by the staff and servants at Casa Yvonneka, where they spent 6 days and 5 nights.

Cheree, 2011 is truly your year, you fierce thing you!

WHISPERS IN THE WIND - (A Little Dirt For The Day)

Boy, talk about handling your business! The talk around the street committee's table is how does the good doctor, I mean ex-doctor, who has made a fortune on taking care of the hands, can't seem to keep his hands off women and cocaine. Now, after losing his professional license for testing positive for cocaine, and losing 3, maybe four wives by now, for an evident temper he can't handle, (wife no.3 alleged he beat her with a bedpole while pregnant), I guess he will be telling it to the judge. Seems like he ought to be tired of handing all his cash over to high profile high priced attorneys to keep him on the ground. Well, someone might be handing him the soap bar if he doesn't get out of this one!

Peacefully Yours,

Hazel
